

FULLY LOADED

The Xpress Music 5800 is labelled as an "iPhone killer". It has a 3.2-inch touch screen with motion sensors. Featuring a 3.2-MP camera with dual LED flash, the phone takes better pictures than the iPhone. Also its user interface features a full QWERTY keyboard in the landscape mode.

Rs 20,000 (expected)

Being a music phone, this Nokia handset is tweaked to give the best sound and multimedia experience. The touch screen has an aspect ratio of 16:9 with a resolution of 640x360. The 1320 mAh Li-Ion battery offers talk time of around eight hours, and can be replaced by the user, unlike in the iPhone.

BIG BLAST

HT303, LG's flagship home theatre system for 2008, delivers great sound quality specially tuned by sound guru Mark Levinson. The model comes with a unique sound remover system for all aspiring singers. You can simply eliminate the voice of the singer and get the feel of the original music with your own voice. The system offers direct recording through USB. It also comes with an audio portable jack for personal devices. Through the virtual sound speakers, it produces a superb sound effect and enhances sound quality without any distortion or exaggeration.
