

Pearls of Creation

Mirari's essence lies in the luxurious sophistication of its jewels. The signature jewellery pieces are emblematic of mystical angel wings (above). One of the four magnificent floral creations introduced by Piaget recently, the rose ring's (right) diamond-pave stylised petals, harmonious curves, generous volume and purity create an illusion of a flower in perpetual bloom. Orra unveils a stunning range of fine jewellery (extreme right), dominated by Belgian solitaires set in a classic, eternal design that include simple or graduation strings of solitaires.

GOLD PLATED

As part of its Francis collection, Rosenthal has launched a new collection called Sheherazade, inspired by *Arabian Nights*. A dramatic interplay of golden arabesque patterns of lattice and vines against hues of fine cream and brown. All handles, lid clasps and pot spouts of the pieces are gold-plated by hand.

OFF THE CUFF

Bulgari's cufflinks make for elegant and contemporary accessories interpreted in silver, white, yellow and pink gold. In keeping with recent trends, pink gold is used instead of yellow gold in the traditional series of "bulgari bulgari" cufflinks. The logo is an integral part of the design and is enclosed by frames in a play of contrasts between shiny and engraved metal surfaces.
