The Mumbai attacks must be seen in this light. If India acts on expected lines, it would produce the desired results for the Pakistani army. Already there is a rallying cry across Pakistan to stand as one and that includes the fundamentalists (see box on Pakistan's options). Everyone now looks upon Kiyani and the army as the only hope to counter an aggressive India. The peace process is on hold and is in danger of breaking down altogether. If India turns the heat on, Kiyani can legitimately pull his troops out from the unpopular war they are conducting on the Afghan front and reposition them on the Indian border. It would also force the US to intervene and give President-elect Barack Obama an excuse to appoint a special envoy like Bill Richardson to mediate on Kashmir between India and Pakistan. Such a move is certain to sour the strong relations that India and US have built up after the nuclear deal. All these developments would eminently suit both Kiyani and Pakistan.

Kiyani is no Musharraf, but then that is possibly one of his strengths. Shuja Nawaz, author of *Crossed Swords: Pakistan: Its Army and the Wars Within*, who has interacted with Kiyani says that unlike Musharraf, "who was quick in making decisions and possibly impetuous too, Kiyani is more deliberate and collegiate in his approach." An avid golfer, Kiyani, 56, is a chain smoker and as another observer put it, "More Pakistani and less cosmopolitan than Musharraf." Growing up in a working class fam-

INDIA'S MOST WANTED

Pakistan believes that if it extradites them to India it would lose one of its main lines of defence.

der Gilani came to power in March it passed an order bringing the ISI under the control of the Interior Ministry. Within days, the Government hastily rescinded the order, after Kiyani lit into them. Then when American predator drones began making attacks inside Pakistani territory, Kiyani threatened to blow them out of the sky if they violated his country's airspace again. He had begun asserting his clout to prove that he was not "America's general." Yet the army remained unpopular and the new democratic dispensation a potential threat to its dominance. So experts believed that the army headed by Kiyani was looking for "a one-shot solution": Target India. Nothing unites Pakistan like a confrontation with India which also brings the army to the forefront.

ily (his father was a junior commissioned officer in the army) Kiyani was considered "a thoroughly professional officer" not given to flamboyance. He was the late Benazir Bhutto's deputy military attaché during her first tenure as prime minister in 1988. When Musharraf usurped power, Kiyani, because of his unquestioned loyalty, had his complete trust. Kiyani was even made ISI chief and, after the assassination attempt on Musharraf, impressed him by bringing the perpetrators to book. His ascension to the top post was seen as a chance for the Pakistan Army to regain its professionalism. Says Cohen, "He is seen as straightforward person—someone who wants to keep the army out of politics."

Nawaz believes that there is "no dissonance" between Islamabad and Rawalpindi
