

manufacturing facilities under the Steel Authority of India Ltd (SAIL). With the Prime Minister of India, Dr. Manmohan Singh, inaugurating its modernisation and expansion projects, Bokaro Steel Plant of the Steel Authority of India Limited is poised to consolidate its stature as the leading public sector undertaking in the state of Jharkhand and the driver of growth in the region.

The unit started as a collaboration agreement with the Soviet Union in January 1965 and incorporated as a limited company - Bokaro Steel Limited (BSL) - on 29th January 1964. It became a wholly owned subsidiary of SAIL on 24th January 1973, but retained the acronym BSL. It merged with SAIL on 1st May 1978.

The unit has a state-of-the-art Research & Control Laboratory with well-equipped laboratories (chemical, metallurgical, Inspection, R&D wings) to monitor

quality of raw materials and products and helping in product development and innovations.

All production units and support services are certified under ISO 9001: 2000 QMS, OHSAS 18001, ISO 14001 EMS. Modern information technology infrastructure; plant wide Fibre-Optic Cable Network; ERP & MES being deployed to further enhance the operational efficiency of the plant.

Bokaro Steel runs 42 schools with no tuition fee in JSSEB-affiliated schools and nominal fee in CBSE schools. Bokaro Steel Kalyan Vidyalaya and Bokaro Steel Balika Vidyalaya offer free education, study material, uniforms and mid-day meals to poor children. It also has adopted 13 Birhor children and gives them free boarding, lodging, clothing and education. BSL has adopted 8 villages which are being developed as Model Steel villages.
