

20,737

cases of rape were reported in 2007, according to the National Crime Records Bureau, an increase of 7.2 per cent from a year before

11%

of the crimes against women involved rape

One of every four crimes against children is rape

18%

is the rate of conviction by courts even though the police managed to unmask the rapists in 68 per cent of the cases

The hot shot film star. The boy next door. Your teacher. Even your lover. If he has a deep-rooted prejudice against women, a history of sexual assaults, and a difficult childhood, new research shows that he may well have the makings of a rapist.

Mind of a RAPIST
