

WHERE COMFORT AND STYLE COME TOGETHER

When it comes to fashion that also makes you relaxed, Rupa is the unquestioned leader. This exclusive brand in the hosiery industry is the handiwork of a visionary trio – chairman, Mr P.R. Agrawala, Vice-Chairman Mr. G.P. Agarwala and Managing Director Mr. K.B. Agarwala. As a result of the collective efforts of this team and their foresight, common sense and understanding of the consumer's choice, today Rupa is the first choice of consumers spread across the Indian Subcontinent to the Middle East. The brand has carved its place at the top of the knitted undergarment industry with an annual turnover of more than Rs. 425 crore. And still growing.

Behind its consistent growth lies continuous R&D to enhance quality and design. By investing continuously in this direction, Rupa has become synonymous with trust for the consumer.

It's biggest mission is to manufacture the finest quality products through constant innovation and improvisation, so that it can become a trusted name and identity in the inner wear and casual wear range.

Upto the minute technology and the latest production line machinery invest each batch of Rupa's products with cutting edge performance and durability. Advanced dyeing and processing unit provide superior finish. Rigid quality monitoring are carried out in a laboratory equipped with modern facilities.

A software with colour testing, fastness and effects, use of high performance devices as well as colour correction and related facilities with colour formulation, by which all its products always live up to international standards. Experts, scientists and technicians assist in the specification work.

RUPA FACTORY

Tirupur Unit : An ultramodern machinery equipped plant has been set up in Tirupur, in the state of Tamil Nadu, for various processes including fabric testing and laying, cutting and stitching as well pressing and stain removing.

Domjur Unit: Situated 8 kms from Kolkata in Domjur, it is India's most ultra-modern dyeing plant, in which 15 tonnes of dyed knitted fabrics are processed daily. The unit is equipped with computerised colour and fabric testing facility. Technology imported from Germany, America, Japan and Switzerland set a high standard of quality manufacturing.

Meeting Global Demand: Rupa's annual growth rate is increasing by more than 30 percent with a daily sale of 6 lakh pieces. It has achieved high consumer satisfaction across UAE, USA, Canada, UK, Chile, various European countries and the Middle East with its zero-compromise policy with regard to quality.
