

## SLICK SCREEN

One thing's for certain. **Kareena Kapoor** looks like a million dollars in *Kambakkht Ishq*. She's in great shape and stylist Aki Narula has dressed her in all the labels that matter. And yet, one can't help but notice that the look's very been there, done that. The curls and clothes are all *Tashan*-esque. Except this time, she's got better heels.

Sharing equal air space is **Deepika Padukone** lighting up the screen in *Love Aaj Kal*. Anaita Shroff Adajania has given Deepika's character a kitschy wardrobe with enough tunics, shorts, beads, chappals and sequin sheaths. In this one, she looks mint fresh.

SHRIYA PATIL

## The Chosen One

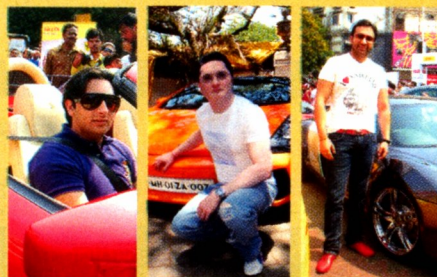

*James, Shiva, Go, Darling* and of course, *Ram Gopal Varma Ki Aag*, had two things in common—their disastrous box office fate and Nisha, now Priyanka, Kothari. Oh, and that they were either produced or directed by Varma, whose loyalty to his muses is well-documented. Despite being part of only flops, the starlet is playing the lead in Ramu's latest, *Agyaat*. Quite an inspiration, eh?

## COLOUR CODED

The Indian tricolour shone bright when Hyderabad girl Saina Nehwal created history. The 19-year-old became the first Indian woman to win a Super Series tournament after winning the Indonesia Open in Jakarta. But the girl with the impish smile seems to have a deeper bond with the flag's three colours. Dressed in all black, Nehwal made a subtle statement with her green, white and saffron hair clips, pinned in exactly that order. The badminton champion has worn saffron and green tic tacs at other matches too. But at no occasion did they stand out as much. She's already found her style, how long before she becomes stylish too?

## WELL-WHEELED

(L TO R) POONAWALLA WITH HIS FERRARI SPYDER; SINGHANIA'S LAMBORGHINI GALLARDO; KUNDRA WITH HIS AUDI A6

What do **Gautam Singhania**, **Adar Poonawalla** and **Raj Kundra** have in common? Lots of spare change and a love for super cars. After flaunting his Lamborghini Gallardo at a recent exhibition, Singhania has started India's first Supercar Club. It was his dream to start an exclusive platform for mean machine owners to meet and exchange notes. Now all you need is a set of hot wheels and an invitation from Singhania.
