

The Game Changers INDIVIDUALS

CNR RAO 76 **PROFESSOR**, Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore

Education Ph.D from Purdue University. He has received 46 honorary doctorates from various universities around the world.

Loves Cooking, gardening, reading.

SANJAY RAMCHANDRA

THE EVANGELIST

Chintamani Nagesa Ramachandra Rao is a giant on the Indian scientific landscape. He works 16 hours a day from his laboratories at the Indian Institute of Science (IISc) and the Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR), both in Bangalore. The former director of IISc has been chairman of scientific advisory councils of prime ministers from Rajiv Gandhi to Manmohan Singh. He is one of the world's foremost solid state and materials chemists. Yet he is no ivory tower specialist. An evangelist of pure sciences, he and his wife Indumati, who runs an educational multimedia lab to teach chemistry to India's school children, have gone around villages, speaking in Kannada and encouraging youngsters to take science courses in colleges.

by Stephen David

"Rao wants India to take over the leadership in science and technology." Roddam Narasimha, Professor, IISc, Bangalore

SUVASHIS MULLICK

"He commands expertise over a broad range of areas, from the traditional to the contemporary." Ananda Lal, Professor, Jadavpur University

SWATI MAJUMDAR 40 **VIDYA YERAVDEKAR** 45 **DIRECTORS**, Symbiosis, Pune

TWO OF A KIND

MANDAR DEODHAR

VIDYA (LEFT) AND SWATI

Not shy of addressing their students as 'customers' of the institute, sisters Swati Majumdar and Vidya Yeravdekar are committed to the satisfaction of the 2.5 lakh youngsters who walk through the portals of Symbiosis University annually. Set up in 1971 by their father Shantaram Balwant Majumdar, under Swati the Symbiosis Centre for Distance Learning has become a pioneer of e-learning

Education Swati did an M.S. from Ball State University, USA; Vidya an M.D. in Gynaecology from B.J. Medical College, Pune.

Pet subject Swati's favourite is computer science while Vidya's is law.

Mantra for change Swati: Develop the right attitude and be efficient, Vidya: Treat every student as a VVIP.

in Asia, while Vidya, giving up her successful career as a doctor, has set up a Centre for Health Care and an Institute of Health Sciences. As the principal director of Symbiosis, she now plans to take the Symbiosis network outside the country, while Swati is the brain behind the corporate learning programme where faculty members travel to corporate campuses. by Swati Mathur

"Symbiosis is a premier institute today, thanks to the entrepreneurial skills of the Mujumdars."

Venkatesh Kumar, Political Scientist, Mumbai University
