

SURESH GYAN VIHAR UNIVERSITY, JAIPUR MOST PROGRESSIVE AND INNOVATIVE UNIVERSITY

"A ccept Challenges, Success will automatically come to you" Vice-Chancellor, Suresh Gyan Vihar University holds it strongly that there are no short cuts to success. One needs to be totally committed, dedicated & a firm believer to achieve success in this cutting edge of technology.

Gyan Vihar University has been most progressive and innovative university of the country. It's one of the finest & largest universities in India exhibiting dynamic infrastructure with more than 8000 students from diverse backgrounds.

Having the honour of being the Vice-Chancellor of such prestigious university, its Vice Chancellor shared his immense pride & pleasure and described recognition by one of the leading publications house of country Financial Express as moment of great achievement & joy procured in the history of their University where consistent efforts were given recognition by one of the leading publications house of country. "This is truly a diamond befitting the crown of the University, The Indian Express Group declared our University among top three Universities (in the category of universities established after 2000) and ranked us as A++ University. The Comparative study was done on various parameters viz Placement, Infrastructure, Human Resource, etc The faculty and students are thrilled after achieving NBA accreditation from HRD ministry Govt. of India, another milestone to their credit. It is unbelievable for many, one educational organization achieving such quality laurels within a duration of a decade" proudly said its Vice Chancellor.

"We are now with the target of exploring the possibilities of tie-ups with foreign universities & thus recently updating our curriculum as exposure of our students with national and international standards is the demand of industry & one's survival. The aim behind is to provide high quality education which will broaden the horizons and develop the skills in Individuals which will eventually enable them to compete successfully in the global market place" says VC. In order to give a real time international exposure University is seeking collaborations with organization of similar nature for many aspects like; Cultural Exchange wherein student delegations of both the universities can visit the other university as a cultural ambassador of their nations with the object of development of global understanding and harmony and Knowledge Sharing wherein the motive is to be helpful for both the organizations to develop understanding about international scenario of education and its standards at every level. Curriculum advancements, education technologies and university management are among the few areas to be considered for the same.

"In the coming years I am confident & visualize Gyan Vihar round the globe through our students, who will be valued & respected world wide" sums up Vice Chancellor while discussing the future plans.
