Where the Quest for Quality

• **GLAITHM** • **GLAIBM** •

**Excerpts from an Interview with
Prof. (Dr.) Jai Prakash,
Director General, GLA Group of Institutions
with over four decades of demonstrated capabilities
as a proven administrator & seasoned academician**

What forces in the environment will shape the destiny of upcoming institutions in future?

I agree that with the increase in the number of institutions the quality of inputs will deteriorate, but it will be an acid test for institutions embarking on their journey towards excellence. The expertise in transformation is the core competence of GLA Group as has been demonstrated by the efficiency with which it has gained wider industry acceptability and it has been conferred with the Star Performers Circle Membership Award instituted by the U.P. Technical University, Lucknow. The B. Tech and the MBA programmes have been awarded the status of star performers by the U.P. Technical University and the MCA programme has been deservedly appreciated for its achievement.

What is the roadmap & destination for GLA as a group of Institutions?

Being in Technical Education for more than 40 years and attached with a private Institution since its very inception in the state of Uttar Pradesh, I have seen that the number of institutions that are providing quality education are a few. GLA Group of institutions is the materialization of my dream for a mature, ripe and ideal education service provider. We have demonstrated our capabilities in the twelve years of our existence and now we aim for the status of University to give meaning and provide understanding about what we possess and what we are capable of.

In your opinion how a full fledged University status will contribute to the benefit of stakeholders and what specific advantages it will offer to students?

Industry and Corporates have the highest stakes in the Technical and Professional Institutions and they are the ultimate users of skilled Human Resources. The Academia-industry interface at GLA Group is very vibrant and it revolves around the central theme of Industry relevant contemporary education. By adopting industry-centric curricula and continuously updating as per changing needs of Industry we will add even more value. We know the weaknesses of students coming from the rural areas in soft skills specifically and will ensure that the contents and pedagogy adopted will address this area for their betterment. We will also be able to cut short on the time assigned for examinations/tests and make the process driven by continuous evaluation, thus more number of teaching days will be a bonus for the productivity, both quantitatively and qualitatively.

**The story of sapling growing & maturing into magnificent tree unfolded
by Mr. Neeraj Agrawal, Secretary Society GLA Group:**

"If you are planning for a year, sow rice; if you are planning for a decade, plant trees; if you are planning for lifetime, educate people"; inspired by this philosophy, Shri Narayan Das Agrawal, a noted philanthropist and businessman, conceptualized the foundation of G.L.A. Group of Institutions in 1998. The role of G.L.A. Institute of Technology & Management (GLAITHM), the first institute to be established under the flagship of G.L.A. Group, has been highly applauded since its inception in 1998 for imparting quality technical and managerial education. Today G.L.A. prefix has become an established name in the field of education under the Shri Jagannath Prasad Ganeshi Lal Bajaj Charitable Trust Samiti.

The 70 acres of lush green and pollution free environs of G.L.A. Group of Institutions is located in the holy city of Mathura on the National Highway No.2, 130 km from Ashram Chowk, Delhi. It houses 5 institutions with earmarked, demarcated, self-sustained educational infrastructure. GLAITHM strives continuously not only to produce engineers and managers at par with global standards but also the focus is equally on providing a strong indigenous system of meaningful education which is holistic in nature, thus being closer to the rich Indian cultural heritage and relevant to the contemporary needs and national priorities. The Institute (GLAITHM) is approved by AICTE and is affiliated to U.P. Technical University, Lucknow. It offers 4-years B. Tech courses in Electronics and Communication, Electrical & Electronics, Mechanical, IT & Computer Science Engineering. It also offers three post graduate courses viz. 3 years full

time MCA, 2-years full time MBA and 2-years PGDM.

G.L.A. Institute of Pharmaceutical Research (G.L.A.I.P.R.), G.L.A. Institute of Professional Studies (G.L.A.I.P.S.) and G.L.A. Institute of Business Management (G.L.A.I.B.M.) are located adjacent to G.L.A.I.T.M. in more than 15 acres of prime land. G.L.A.I.P.R. offers course in B. Pharma (4-years course). The institute is approved by the AICTE and is affiliated to U.P. Technical University, Lucknow. G.L.A.I.P.S. is approved by UGC and is affiliated to Dr. B. R. Ambedkar University, Agra. It runs programmes in BBA (3-years course), BCA (3-years course) and B. Sc. (Biotechnology). GLAIBM offers 2-years full time MBA course (affiliated to U.P. Technical University, Lucknow) and 2-years PGDM course (autonomous) in various functional areas of management.

G. L. A. Group excels in all the parameters earmarked by the statutory and regulatory bodies. Due to his earnest desire to provide quality education to the masses and in an effort to meet with the escalating demands for quality education, Shri Narayan Das Agrawal established GLNA Institute of Technology under the aegis of Ganeshi Lal Narayan Das Agrawal Charitable Society. The Institute runs B. Tech programme in four courses with an intake of 240 students. GLAITHM was among the pioneering institutions to obtain the ISO certification and now three of its courses are also accredited by the National Board of Accreditation (NBA). The uniqueness in the teaching pedagogy emerging from an exhaustive and intensive Educational Audit System ensures sequentially progressive assessment resulting in enviable standards of attentiveness among the students.
