

PAAVAI - THE SHINING LIGHT OF EDUCATION

The main mission of the Paavai Educational Institutions is to serve students interested in pursuing academic excellence, to establish the groundwork for success in their graduate study. This would lead them to their chosen careers, and to become lifelong learners and effective citizens. The Paavai Educational Institutions helps to foster the ideal of an education in the engineering and sciences that develops intellectual capacities and expands general knowledge by exposing students to a variety of disciplines.

Jewel in the Crown

No wonder that Paavai Engineering College was judged 25th among 271 colleges affiliated to Anna University; this is truly a diamond befitting the crown of the Paavai Institutions

Studying at the Paavai lays an academic foundation that applies to all the streams, whether in the natural or applied science, or the most coveted faculty, the computer science and engineering, Paavai prepares students for opportunities to study with the best of faculty and scholars.

Engineering Colleges

Paavai Engineering College has departments in Electronic and Communication Engineering, where there are facilities of VLSI Lab, Embedded Systems Lab, Digital Signal Processing Lab and Microwave Communication Lab.

The Computer Science and Engineering has the latest in equipment and software, the department has value added courses like E-Developer and J2EE. The DBMS Lab, NPM Lab, VP Lab and other relevant trainings are conducted for the students to ride the crest of the Information Technology wave.

The Information Technology Department has the latest hardware complementing software; the faculty is noteworthy in their experience.

The Mechanical Engineering Department has CAD Lab, Steam

and IC Lab, Heat Transfer Lab, Strength of Material Lab and the Fluid Mechanics & Machinery Lab. It is also well equipped with lathes machines, drilling machines and Bench Grinders. The Instrumentation and Dynamics Laboratory is one of the best facility Labs in the college.

Civil Engineering Department has different Labs for the various aspects of infrastructure.

The primary among the Labs being the Survey Laboratory where standard instruments like Plane table, Level and Theodolite are featured.

The Strength of Materials Lab has equipment to test the structural materials like timber, concrete and more.

Electrical & Electronics Department of Paavai has specially designed hi-tech laboratories for Electrical machines, Power Electronics, Power circuits, Power Systems Simulation and Instrumentation.

The Masters in Business Administration is under the auspices of the Paavai Engineering College, this department has one of the best academic ambiances, facilities and faculty, not to forget the placements.

The Masters in Computer Applications has the best of Labs and advanced software that would facilitate the higher learning needed for this course. Extensive and increasing computing and communications technology facilities make the Paavai among the best equipped in the country. The faculty at Paavai Educational Institutions cultivate a dynamic environment filled with activities and organizations where students grow as individuals and thrive as professionals.

All the programs here are unique for its intensity, industry collaboration, intended skill set, and the international composition and outlook of all participants.
