

Bridging Education and Opportunities

In 1968, the Alpha Educational Society founded the Alpha Matriculation Higher Secondary School, which enabled as a starting point for many to find the path of educational excellence, following this, in 1996, Alpha College of Arts and Sciences was started, and in 2006, the College of Engineering was on track. Thousands of students have passed through the portals of this venerable institution, making the best of the given opportunities.

Alpha Institutions have undergraduate courses range from B.Sc in Bio technology to B.Sc in Visual Communication, there is Commerce and Computer applications programs, as well as the most coveted of the study programs, B.E in Computer Science, B.E in Electronics and Communication Engineering, and Masters in Business Administration. The Post Graduate programs range from M.Sc in Bio Technology to M.Sc in Information Technology.

Research workshops are conducted with leading companies and this integrates the academics with industry, making both the entities stronger.

There are many One of features at Alpha Institutions, to start with, is the 24/7 virtual portal for the students, where their queries can be addressed, the English and Foreign language development cell, where multilingual capacities are developed. This has borne fruit with the students bagging prizes on an international platform year after year. The E-Cell where entrepreneurship is fostered, expanding the horizons of the students, from the employee mindset to employer capabilities. The Students in Free Enterprise is one of the innovative programs where the students have won medals, competing with the cream of global competition.

The Alpha School for Niche Training has been mooted with the idea of enhancing creative productivity, with regards to the science graduates who can focus primarily on two major areas- biosciences and robotics. Expertise from Industry and academy

partners like Orchid Pharmaceuticals, Ohlone University, Ford India and Lake Superior State University will be incorporated in the first stage. The Indian Institute of Science and the IITs will help this school by exploring the feasibility of MoUs.

Ms. SUJIA GEORGE
Managing Director

This Alpha School proposes to advance into contract-based research and eventually, independent research and will be a vision statement for the future of Indian scientific research

The 100 % placements are done with the best in the relevant fields, Infosys, Sun Pharmaceuticals, Cipla, and list is growing. The research academia has spread all over the world at premier

institutions like Max Planck Institute (Germany) etc.

At the Alpha Institutions, motto of Seek, Share and Serve has been inculcated in every student, while enabling students to acquire the intellectual, social, and decision-making skills necessary to assume responsible citizenship in a global society. The complement of a rigorous academic curriculum and myriad co-curricular opportunities provides each student with the opportunity to achieve the Alpha Institutions' vision of a life in balance.

Dr. (Mrs) GRACE GEORGE
Chairperson
