

provide wide ranging exposure to students. The college is part of the Campus Connect program with Infosys for training students in accordance with the needs of the Industry. The college also conducts specialized courses for CAD packages like Pro-E and Catia V5.

During the current academic year, over 500 students of the college have already been placed in reputed organizations like Infosys, Perot Systems, HCL Technologies, L&T, L&T Infotech, Hyundai, Satyam Computers, SYNTel, Wipro Technologies, I Flex Solutions, Mahindra and Mahindra, Cummins, Sapient, I-Gate, Jakson Engineers Ltd., NTPC, IBM, Indian Air Force and the Indian Army.

Managed by a team of technocrats and management experts, AKGEC aims to produce sound technical professionals with a temperament of strong logic and good values.

HIGHLIGHTS

- Declared the "Best Engineering College" in UPTU by the Jury for UPTU Academic Excellence Award.
- All B.Tech branches accredited by NBA, AICTE
- Consistently best results in UPTU
- 99% MCA and 95% B.Tech students graduated with 1st Div.
- Over 500 students placed in reputed companies like Infosys, NIIT, Perot Systems, L&T, Wipro etc. during the current academic year
- Number of alumni pursuing higher studies at reputed institutions, including IITs, IIMs and XLRI
- Infosys Campus Connect, CAD and Personality Development Programs
- EDUSAT Interactive Satellite Terminal
- 730 networked computer with broadband for round the clock internet facility
- Library with over 28000 books and e-journals
- On campus Boys/ Girls Hostels for more than 1200 students
- Software Incubator established for developing software engineering skills among students.

INTALK WITH
DR R.K. AGARWAL
DIRECTOR

■ What are the key strengths of AKGEC?

The main ingredients for quality education are competent faculty, proper infrastructure, committed staff and an inspiring leadership for effective, efficient and synergistic use of these resources. AKGEC is a confluence of all these factors. Also, our innovative approach to academics and our intellectual property are our key strengths.

■ Having reached the top position in U.P., what are your plans now?

There is no limit to excellence. We believe in setting audacious goals and infusing fresh ideas to achieve them. Our objective is to raise the overall academic standard as well as to bridge the gap between academic curriculum and industry requirements. We have initiated various collaborative programs with industries like Infosys and CSC to improve employability of our students. We believe in producing globally employable engineers who can match the requirements of fast growing industry. The college is planning to expand the existing M.Tech. programmes and also promote industry oriented projects/ R & D activity through establishment of a "Centre of Relevance and Excellence" supported by Department of Science & Technology.

■ What is the measure of AKGEC's credibility?

Consistently excellent results and ever improving placements are the true evidence of our success. Past admission trends, with general category seats of our college in all branches getting filled on the first day of UPTU counseling, indicate the perception and preference of students for our college.
