

# Shobhit University

(Shobhit Institute of Engineering & Technology)

EDUCATION EMPOWERS

A University declared by GOI u/s 3 of UGC Act, 1956

## Our Global Agenda

This is a time of profound change for higher and technical education, across the world, as we adjust to the demands of a knowledge-based economy and a global marketplace, demands for good governance and accountability, competition among institutions at all levels, and an unrelenting demand for quality. In these challenging times, we are privileged to be a University that understood the winds of change and formulated its mission and goals for the future in a globalised world and its future standing among the nation's leading universities. We are also conscious of our great potential and unlimited opportunities. **Shobhit University** goes beyond the established standards and aims to create a conducive, enabling academic climate to facilitate integration of the younger generation into the logic of the present system and to develop educational means by which youth deal critically and creatively with reality and discover how to participate in transforming to a better world.

## Our Initiatives

### Shobhit University Business Incubator

SUBI was initially envisaged to foster the idea of innovation, enterprise and entrepreneurship in the field of Business Management, Engineering, Computer Sciences, IT Technology, and Pharmaceutical Sciences. It serves as launching pad for enthusiastic entrepreneurs having innovative ideas, resolve and a dream to achieve success in any field with a viable technology. A number of companies from different sectors including a German Company have signed agreements with the University.

### International Skills Development Centre

The importance of skills development for inclusive growth of our country and the world in these times of economic downturn can not be over emphasized. India has to be considered as the grand destination for skill development considering its resurgent youth potential in the next century. The ISDC is a modest initiative for developing this tremendous potential as we usher ourselves into the new century and in working with national and international bodies including IGNOU and CWYP.

### International Academic Alliances

Shobhit University partners with a number of well known international universities and institutions for academic exchange in the form of faculty and students for joint study, research activities and joint scientific and scholarly outputs. Our students also have an opportunity to study under progression agreements abroad.

### India International Exchange (IIE)

In order to encourage national research on issues of contemporary significance and promote foreign investments, the University has launched India International Exchange (IIE) Centre. As a facilitation centre, the IIE seeks to provide necessary data to university researchers/scholars abroad and also act as a platform to carry out surveys for industries abroad so that they may make investments in specific areas in India.

## Our Strength

### Strong Alumni Network

The success of an educational organization may be measured by the success of its students. We are proud that in last 20 years our presence through our Alumni is global. From TATA to IBM, from Reliance to Alcatel, from SAP to Oracle, from Infosys to Microsoft; a very strong alumni network exists, which is always more than eager to assist its alma mater for corporate relations and placement activities.
