

NETAJI SUBHASH INSTITUTE OF MANAGEMENT SCIENCES

DEVELOPING BUSINESS LEADERS

With an aim to impart cutting edge quality management education, Netaji Subhash Institute of Management Sciences (NIMS) was established in Delhi in the year 2005. It is a thoroughly modern B-school with state of the art infrastructure and an ambitious agenda. The hallmark of its intellectual capital is its firm belief that there exists an innovative solution to every problem, and that is what it trains its budding entrepreneurs to excel at, to not only explore and implement effective solutions but also to adopt a proactive strategy in business. Identifying the essential pre requisites for a successful business career, NIMS has its emphasis on practical value based learning and on developing leadership and problem solving skills. Not to be surprised NIMS is the only institute focusing on providing only administrative qualification. A lot of time is devoted here to developing communication & language (English) skills and on all round development of personality with frequently organized Extra-Curricular activities involving students at all levels. Apart from its strategic affiliations with UGC recognized universities, namely Guru Jambheshwar University, Hisar and Punjab Technical University, Jalandhar, the Institute also proudly boasts of its international linkages with Purdue University Chicago and National College of Ireland, through which it offers MBA and B.A. Honors Degrees in Business

respectively. Our thrust is on Graduate programme in Management (GPM) and Post Graduate Programme in Management (PGPM) awarded by the Institute which are autonomous courses whose certificate is provided by the Institute, without any extra cost along with the respective University Degrees. THE GPM and PGPM courses offer a variety of modules like English, IELTS, DOEACC "O" Level, Insurance Management, Retail Management, soft-skills etc to name a few, which are a testimony to the quality of teaching and learning resources that we provide to our students so that we can give a solid foundation to their careers.

Besides having a strategic location in the heart of the upcoming professional hub of Delhi, Pitam Pura, and NIMS has a well designed campus with lots of open spaces. The air conditioned class rooms are equipped with modern audio-visual systems making them conducive for presentations as well as conventional lectures. The campus is ultramodern with WI-FI connectivity and a well stocked digi-library. The hi-tech labs act as ideal training ground for budding professionals. It allows students to experiment and bring to practice what they have learnt in theory. Finally, the Institute promotes a creative learning environment aiming at becoming a centre of excellence in management education.

POPULAR DESTINATION FOR KNOWLEDGE SEEKERS

SUNIL SHARMA
CHANCELLOR

"The landscape of education by 2020 will be dramatically transformed where India will play a vital role as 60% of it's total population will be youth." Says Sunil Sharma Chancellor of Suresh Gyan Vihar University located at Jaipur.

He further adds to it "My vision is to see Gyan Vihar University as a front runner University of the world. The coming era would be ruled by knowledge & education and Gyan Vihar, being a hub of technical education will be the most popular destination for potential knowledge seekers. We see our role as training and nurturing the leaders of tomorrow."

Mr. Sharma believe the factors that distinguish Gyan Vihar are, dynamic infrastructure, versatile human resource, interactive learning environment, quality teaching by experts skilled at integrating theoretical knowledge with practical applications, proud alumni & proactive placement cell. Together these attributes have transformed the University into a vibrant place where the resources are at par with International standards for engineering and business education.

Gyan Vihar has now been in existence for more than a decade and has developed and consolidated itself in terms of not only maintaining excellence but also augmenting the resources and its inbuilt capacity for resource generation. A broad spectrum of academic disciplines and their high credibility rating are testimony enough to ensure the prospective students an assured guarantee of receiving sound teaching and wide variety of jobs both within the country and internationally. We are committed and dedicated to research excellence to become one of the leading comprehensive universities of the world.
