

# PROGRAMMES TO EDUCATE AND HONE THE SKILLS OF RETAIL PROFESSIONALS AND ASPIRANTS

The Indian Retail School (IRS) has been rated as best Retail Management Institute by The Week magazine in a survey conducted by AC Nielson in 2009. IRS is the first academic institute of retail, launched by House of Pearl, catering to the growing fashion and retail sectors in India. The institute conducts a range of programmes to educate and hone the skills of retail professionals and aspirants to meet the immediate and upcoming requirement of the retail sector. All programmes and services are geared towards building skills, knowledge and understanding at all levels of management. The curriculum structured by industry experts include classroom lessons, case studies, management games, interactive sessions, seminars, role plays, exercise, workshops, project and group activities. The institute provides unique educational and career development opportunities for students who want to start a career in retail, experienced retail people, who aspire for better prospects, entrepreneurs who wish to make their business ventures successful.

IRS this year has introduced two new specialized courses like BA (H) Retail Management with Marketing in collaboration with University of Central Lancashire (UK) which is a 3 year course and Post Graduation in Visual Merchandising & Store Design a 1 year course.

Dr. Tarun Panwar was appointed as the new Chief Executive Officer (CEO) of IRS. Dr. Panwar is a PhD, MBA and has studied Retail at Fashion Institute of Technology, NY University. IRS recently shifted its base to a new state of the art campus in Naraina, Delhi with a carpet area of over 11,000 sq. ft. The new building is centrally air conditioned equipped with modern Audio Video equipments.

As one the leading retail institutes in the country, IRS has always been able to achieve excellent placements for its students. IRS students in the past have been placed in few of the finest names in the industry like Shoppers Stop, Pantaloon, Lifestyle, Puma, DLF, Channel, Titan, ITC, Hidesign, Mahindra & Mahindra, Tommy Hilfiger, JJ Valaya, General Motors to name a few.

## MODERN INSTITUTE OF TECHNOLOGY AND RESEARCH CENTER An institute that nurture and nourishes talents

Under the aegis of AIASSAER, MITRC is an institution that undertook the task of spreading the light of knowledge & values at Alwar, a city of parks, and widely known as "The Singhdwar of Rajasthan" located on the one hand amidst the beautiful landscape of Aravalli hills and Sariska Tiger Sanctuary (National Park) and breezing fresh air and soothing the minds & souls of the inhabitants, on the other hand. Alwar falls in National Capital Region (NCR) and participates in writing the history of India's economic growth.

MITRC aims at motivating & directing the Engineering minds of the young students to become the trendsetters in developing, shaping and preserving the society and the world at large. It not only aims at equipping the students with the latest Engineering skills & knowledge to successfully meet the challenges posed by globalization, but also to be good & worthy citizens of this great country aiding it in its overall progress & development. "We have taken the pledge to provide professional education of a distinct genre by blending it with right values. Our institute strives at grooming the students, making them sensitive towards societal challenges of the world in general & India in particular, and handle it with professional & technical process. This is to be done by the development of professional & mental framework of the young students which would enable them to evaluate, analyse & solve the challenges and write new stories of success" proudly says its Chairman, Dharampal Choudhary.

Emphasis is laid on the blending of modernity with tradition & proudly claim that "We nourish & nurture talents". The institute encourages healthy competition to enable our students to find a place in today's competitive world. Hence sharing of knowledge in different fields of study is our strength and not confining the students to academics only, says its director Dr Rakesh Duggal.

With global look of markets and companies clubbed with work cultures of multi-ethnic nature, the concept of sound as well as innovative approach towards professional education is fast evolving to meet the urgencies of the corporate world. As a result of it, the skills of effective communication, acquiring a proactive attitude, working in a team with proven abilities and capable of thinking in and out of the box for generating new design solutions and ideas have become the need of the hour for young professionals.

MITRC visualizes it as a mission to transform them into the best human resource and believes in a dynamic methodology of teaching in the rapidly changing scenario of education adopting an approach in consonance with Indian heritage, values and traditions. It has infrastructural facilities of international standards with a blend of an ideal environment for the attainment of academic excellence. Extra curricular activities are encouraged for all round personality development. MITRC inspires the students not only to dream of a successful and rewarding future but also to translate these dreams into reality.
