

NATIONAL LAW UNIVERSITY, DELHI

DESTINATION FOR LAW EDUCATION

A life changing experience

PROF. (DR.) RANBIR SINGH
VICE-CHANCELLOR

I have moved to head this School from a Law School-NALSAR- that scaled the heights in less than a decade. The challenge in this new assignment is to raise the bar and set the competitive spirit with an Institution which was part of my spirit for a decade. The competition is one that will spur everyone to excel better. National Law University, Delhi has a natural advantage of its location which needs to be synergized to build this youngest school to achieve greater heights and new benchmarks.

I am looking forward to see my students fulfilling the aspirations of the society and the mission of this law University.

On the initiative of High Court of Delhi and with the support of Government of National Capital Territory of Delhi, National Law University, Delhi was established by an Act No. 1 of 2008 of NCT of Delhi. The Chief Justice of India is The Visitor of the University and Chief Justice of High Court of Delhi is the Chancellor of the University.

The vision of the University is to create a Global Legal Institution which will compete with the best outside India and to prepare Lawyers for a legal career that introduces them to wide range of opportunities in legal profession across the globe. The University's State of the Art infrastructure is near completion at Sector 14, Dwarka, New Delhi, with all facilities for best of learning and research. The University has world class on-line research facilities for the students, researchers and the faculty. The Library resources provided to the students and the faculty are the best available in the world.

The University offers 5 year integrated B.A., LL.B. (Hons.) programme after 10 + 2. The students are selected through an All India Entrance Examination conducted in the month of May, every year. The academic session at NLUD starts between August-December and February-June, with winter and summer break for six weeks of which four weeks are for doing internship by the students.

Each semester has five papers. The students are continuously evaluated throughout each semester. Each student has to write a research papers on all the subjects in each semester

which is a unique feature of the Law Schools. During the 5 years the student completes 50 courses including specialized semester courses which they can offer in their senior classes. The seminar courses like Mergers & Acquisition, Advance IPR, WTO, Money Laundering, Cyber Laws, Media Laws, Taxation Laws, Air & Space Law, Women and the Law, Child and the Law, International Human Rights Law, Refugee Law, International Humanitarian Law, Displaced and the Law, Disabilities Law, Minorities Law, National Security Laws, International Commercial Arbitration etc are offered by students in their senior classes as specialization.

NLUD students come from diverse backgrounds with aspirations of their own. They are intelligent and our task is to provide them a platform to decide their future course in life. The faculty ensures that the curriculum is stimulating, participative and modern. Listening to students, smoothly moulding their minds and imparting knowledge is what the faculty is adept at. Five years at NLUD is an ideal blend of learning which will prepare students for the tomorrows and the burgeoning needs of the legal world, with broad perspectives and finer details. They will graduate to be one of the finest lawyers. We will ensure that more than this happens.

Teachers at NLUD build bridges for students to support them across trying times both in and out of class. Students can discuss about their economic hardships, emotional turmoil's, English language difficulties, confusion about career choices or just even counseling for appropriate and reachable career goals. In class, there is a constant dialogue with students on issues of contemporary concern and curricula constantly match the changing times.

The University ensures to endeavor to bridge the wide gap between the theory and practical application of concepts through a learning process which is simulative, participative and multi-disciplinary.

NLUD will ignite and nurture the spirit of inquiry.
