The Power of Dreams

MERIDIAN 0106

The radical new Honda Jazz gives you a clean break from the past. So why be uptight when a 90 PS i-VTEC engine is begging you to break free? Why worry about playing roles when there's enough space to fit in you and the little kid inside you? Why play safe when you've got so much protection? Why not get a color that screams happy? Why be so serious when there's just one life to smile?
