

BUILDING TOMORROW'S DREAMS.... TODAY

ASHOK PAL
Group Chairman

Ajay Kumar Garg Institute of Management (AKGIM) is an initiative of Indian Institute of Management and Engineering Society which runs the prestigious Ajay Kumar Garg Engineering College, which has been ranked No. 1 Self Financed Engineering college by UP Technical University based on 2007-08 results and has been awarded the best Engineering College award by Ghaziabad Management Association. IIMES is a philanthropic body comprising of technocrats and industrialists committed to the cause of education and creation of a better society for the country. AKGIM has been established to build a center of quality management education, research and consultancy. Despite a mushrooming growth in the number of management institutes, particularly in the NCR, very few of them have been able to synchronize infrastructure, intellectual capital, campus technology and commitment towards quality in order to build a centre of excellence. AKGIM strives to achieve the same and aims for a metamorphosis into a centre for management excellence. The raison d'être of

AKGIM is to prepare business leaders for the industry and to develop sound academia-industry collaboration.

The sprawling AKG campus is a testimony to the grand designs that we have in store for future. The lush green, quiet and serene campus free from any sort of pollution is the perfect setting for arduous hours of studies and activities.

AKGIM possesses an enviable infrastructure with all class rooms built in theatre style and air conditioned with mounted LCD projectors, OHPs and sound amplifiers. There are separate seminar halls and conference rooms for conducting academic activities apart from teaching. The aesthetic architecture combined with the green environs furnishes a perfect ambience for the learning process, co-curricular activities and professional development. The Institute has 200 kva power back up for uninterrupted flow of activities.

In tune with the demands of the times, AKGIM possesses an enviable technology set up. With 2 mbps internet connectivity and Wi-fi enabled campus AKGIM rates among the best. The computer centre of the Institute is fully equipped with the latest statistical software like SPSS, SYSTAT, etc to facilitate student projects and research.

AKGIM library, though in its stage of infancy, is something to be proud of. An air-conditioned library centre with a large number of books, compendiums, directories, year books and CD-ROMS is at the disposal of its students. The library subscribes to various journals and magazines, both Indian and foreign and has online subscription to various journal resources such as Emerald, JSTOR, etc. Students have access to these online journals on PCs installed within the library.
