

AKGIM provides hostel accommodation to both male and female students in student residences located both inside and outside the campus. The hostels are aesthetically built with 24 hr water and power supply, solar heating systems for hot water in winters, clean and hygienic messes providing quality food, facilities for indoor sports, gymnasium and outdoor sports.

The flagship programme of the Institute is PGDM which commenced from the session 2008-09. The programme is autonomous and approved by AICTE. This is a two year full time programme aimed at transforming raw graduates into polished managers. The prime focus of the programme is to prepare professionals who would take up leadership positions in organizations across industry, government sector and NGOs. The programme has been designed to equip youngsters with the basic set of knowledge, skills and aptitude that would be required of them in corporate/non-corporate organizations.

The pedagogy of the Institute is in line with the best that is practiced by B-Schools not only in India but internationally. The pedagogy includes lectures, case study discussions, presentations, group discussions, management games, syndicate method, projects and field visits. In addition to the summer training project, students are assigned small projects during the session in order to enhance their practical exposure. Another unique feature of the Institute's pedagogy is Human Process Labs which are extremely beneficial in behavioral and attitude training of students. Eminent speakers from the industries are regularly invited to provide value addition to the inputs given by our core faculty.

At AKGIM, the singular belief is to metamorphose the students into hard core professionals. The inculcation of professional attitude, behavior and skills must take place within the course span of two years. No stones are left unturned in achieving this. Each trimester has modules on professional and personality development which aim at enhancing communication skills, non-verbal skills, emotional intelligence, creativity and innovation among the student managers. Services of professional trainers are utilized for this purpose. The Institute also offers modules on foreign languages in order to increase the employability of its students in the globalized business environment. Another redeeming feature of the PD process is mentorship culture in which the Faculty mentors the student managers on a continuous basis.

The Institute, though in its first year, has a full fledged Training & Placement Cell headed by a Faculty member to help the students find suitable placement in corporate sector. At present the cell is engaged in summer internship placements of the students and has been able to achieve 100 per cent placement in companies like BHEL, Max New York Life, UNICON Investment solutions, Bhilwara Group, Miranda Tools, Star Wire, Mahindra & Mahindra, Jay Bharat Maruti to name a few.

With a definite philosophical outlook, concrete vision and mission, awareness of the changing paradigms of management education and corporate sector, backed with adequate resources the institute is striving to make its contribution in the field of management education ■

IN TALK WITH

DR ANOOP PANT
Director, AKGIM

"We build dreams"

■ What is the philosophy of AKGIM?

The world as we know it is in a process of unprecedented transformation from fragmented society to the integrated global environment. The need for professionalisation and globalization of management has been immense and this has fuelled the demand for technically qualified managers. In order to achieve excellence and gain competitive edge, we at AKGIM have taken extreme care about the need to provide exceptional, pedagogical, scholastic and practical curriculum to our budding professionals.

■ How do you perceive AKGIM to be different from the rest?

It is our earnest effort to arm managers of tomorrow with knowledge accompanied by cutting edge skills and abilities to apply their knowledge for growth and success of their organizations. We provide an excellent learning environment and emphasize on inculcating professional ethos, team work and all round personality development. Our endeavor is to fructify our students' ambitions of becoming successful managers of future India. Excellent infrastructure, corporate interface, mentorship culture, a year round activity calendar and an innovative pedagogy make us different from the rest.

■ What are your future plans?

We strive to build AKGIM not only as a centre of quality management education but also as a centre for research, consultancy and fostering entrepreneurship through development of Entrepreneurship Incubators.
