

**100%
Body Guard**

Freshen up.

**Stay free from
itches, rashes,
skin irritations
& infections.**

After bath

To prevent skin rashes and infections and get fresh for the day-Mix Suthol in mug of water and use it as the final wash after bath.

After the day's work-

Wash your hands with Suthol and apply under arms, back of neck and beneath undergarments. Itchiness and sweat related irritations will vanish immediately. Feel relaxed and ready for more.

Wash your feet well with Suthol solution, specially if kept within socks throughout the day. They will remain infection-free and fresh.

After shaving-

After shaving or waxing apply Suthol to soothe your skin and prevent infection.

Sudden need

In mosquito bites, minor burns, cuts, insect bites and summer skin rashes - Suthol wipes away all itches and

irritations. Suthol is very effective in curing rashes and infections.

How to use :

- ◆ Pour Suthol on wet palm and apply
 - ◆ Apply Suthol using cotton balls
 - ◆ Add Suthol in a mug of water and use
