

Introducing
Raymond
Made-to-Measure

Because
nothing else can
measure up!

An experience that seamlessly blends the best of personalised tailoring with modern manufacturing methods, to create the perfect garment with an impeccable finish.

Our experts begin by helping you pick the right style and fabric to suit your body type and the occasion.

The fabric is then cut using sophisticated, computer-aided technology. Finally, it is put together with the finest of threads, imported linings, interlinings, buttons and in the case of a suit mounted on a unique floating canvas for a superior drape. The end result is a garment that is the true measure of your class.

The Complete Man
