

AIIM, Indore A Centre of Hope for Childless Couples

Evolution is the nature's law and so this centre too has evolved to serve better and offer more effective, safe and evidence based treatment options to suit every individual's need, since its inception in 1995. Utmost integrity, discipline, truthfulness and devotion with total quality assurance and best of treatment under on roof are the hallmarks of this infertility clinic in Central India.

AIIM is one of the biggest IVF Centre built in the country designed as per international norms.

Stringent quality control is our USP

The Team at AIIM & A State-of-the-Art Facility

Dr. Dinesh Jain & Dr. Shefali Jain, Director IVF lab and embryologist & chief clinician & infertility expert form the main pillars. Both have taken training from GENK Belgium pioneer in IVF/ISFI. They are ably assisted by a team of 25 expert staff members.

The Work Culture at AIIM

The belief that infertility treatment should take place in a lively and happening place with due human touch, in a relaxed atmosphere far from hectic, white uniformed world of hospitals is the founding principle of AIIM. As a patient comes to AIIM he/she becomes part of the extended family. This functions as a one-stop fertility centre where in an action plan is formulated in a cost

Why to Choose this Centre

- One of the most advanced lab with 5 Incubators & separate Andrology & Culture Lab.
- Quality Control as per International norms.
- Results comparable with the best International Labs.
- Total Transparency: Patient can see their own entire procedure in the Lab.
- Emphasis being laid on bilateral communication & implementing shared decisions with utmost human touch during treatment cycles.

Achievements of the Centre
