

Donate a solar lantern. Light up a future.

Even today, every evening when the sun goes down, lack of electricity in our remote villages, brings 400 million lives to a standstill. Worst still, it dims even the little hopes of the young, deprived of an opportunity to study in the evening.

Your contribution of just Rs. 3,600 towards one rechargeable TERI Solar Lantern, will light up a home, and few such hopes. And a contribution of Rs. 300,000 will light up an entire village.

Cheques drawn in favour of TERI may please be mailed to: TERI, Darbari Seth Block, IHC Complex, Lodhi Road, New Delhi - 110 003.

The Energy and Resources Institute (TERI) is an organization of international repute headed by Dr. Rajendra Pachauri, recipient of the Nobel Prize, as Chairman of the IPCC. All contributions will go towards 'Lighting a Billion Lives' a TERI initiative to provide free solar lanterns to our 400 million fellow Indians. Donations are eligible for deduction under Section 80 G. For further information, please log on to <http://labl.teriin.org>.
