

TANK AMERICAINE
FLYING TOURBILLON 9452 MC CALIBRE

Cartier

White gold case on alligator strap. Mechanical movement with manual winding, Cartier calibre 9452 MC (10 and 3/4 lines, 19 jewels, 21,600 vibrations per hour). Seconds indicated by the C-shaped tourbillon cage. Movement developed and assembled by the Cartier Manufacture in accordance with the Geneva Hallmark tradition: pieces with polished angles and file strokes, polished screw heads and jewels, bevelled geartrain wheels on both sides, polished pinion shanks and faces.
