

• **Coming from a family in publishing business having an iconic retail outlet for books, what made you get into the education sector?**

I've always been exploring new ventures, new projects to invest my energies in. I felt that there was a lot to do in the field of education especially in northern India. I started from a rented accommodation in 1999 with just about 40 students and 10 teachers and today we have around 5000 students in our Engineering and Management programs alone and the number is growing. We also have highest number of M.Tech./Ph.D holders amongst our, over 300 experienced faculty. Our faculty has set new standards by presenting over 100 papers which is one of the highest amongst any private engineering colleges in NCR.

• **What do you think is the USP of Galgotias Group of Institutions?**

We have not one but many USPs. Today, Galgotias is a name to reckon with Quality Education purely on these merits – highly qualified faculty, state-of-the-art infrastructure and teaching & learning procedures that are a class apart. We consistently improve our research record and take up projects to enrich the teaching-learning process. Our institutes have a 10-year thought process that we have invested in our rich legacy.

• **Why are you so selective about the students you admit?**

See, we are imparting niche education here. World-class standards have to be maintained right from admission to placement. This requires us to find out students with both – aptitude and attitude. Such learners are rare and these are the ones we pick up for grooming and guidance.

• **Will you share with us GCET's success story?**

GCET has grown over the years to become a brilliant example of professional training and education. It is adjudged among top engineering colleges with world-class infrastructure and faculty by a leading magazine and has received the Award for Excellence – the prestigious BUSINESS AWARD 2008-09 from former Minister of State for Home, Shri. Sripakash Jaiswal. The Vice Chancellor of UPTU ranked our institute as A+ amongst all UPTU affiliated colleges. He also applauded the college's management system, ambience and quality policy on student's admission.

GCET has the potential to grow fast and become one of the finest Engineering College in UP.

– Prof. Prem Vrat, Vice Chancellor, UPTU

DATAQUEST and OUTLOOK as well as INDIA TODAY ASPIRE has ranked GCET among top engineering colleges in India. AICTE has also awarded GCET two more branches in Core Engineering studies. To share with you the latest achievement, one of our students has got selected in IIM Kolkata and is shortlisted for Aditya Birla Foundation Award.

• **Wonderful, and what about Galgotia's Business School's track record?**

Galgotia's Business School is ranked among 'Top Choice' in business institutions by Mail Today. Forbes is an associate of Galgotia's Business School in academics. At Galgotia's Business School, constant innovation in courses and pedagogy is practiced. From the current academic session we have launched a new course in Family Business & Entrepreneurship. We have signed an MOU with National Entrepreneurship Network and are also in close partnership with CII. Our highly accomplished faculty coming from top institutions from all over the country is our core strength. We are seriously into Student Empowerment and conduct Corporate Interface Seminars. We have had successful sessions with DLF, Dalmia Cement, HCL Technologies, Modi Group, Network 18, Asian Paints, DS Group and many more.

• **How do the latest results place you?**

This year, the GCET second-year results rated us amongst Top 3 colleges in UP. Our results third-year results place us among Top 5 private colleges affiliated to UPTU. Our 2008-09 pass percentage of 98.9 percent makes us one of the best among all colleges affiliated to UPTU.

• **And what's the placement scene?**

We have attracted 44 companies for our Engineering & Technology students including TCS, Satyam, Infosys, HCL Technologies and NIIT Technologies and as many as 45 companies such as ICICI Prudential, Jaypee Infrastructure,

Suneel Galgotia, Chairman, GEI with his son Dhruv Galgotia

Vodafone, HDFC Bank, Bajaj Capital and India Bulls for our Management students.

• **The meltdown didn't hamper your growth and placement prospects, but did it bring some change in the trends in professional education?**

We have observed that courses such as Electronics, Mechanical and Civil Engineering are back in demand. Of the 44 companies that have approached us for recruitment, 16 were core sector firms interested in hiring students from our Mechanical Engineering, Electronics & Communication and Electronics & Instrumentation programs.

• **What's behind the industry's overwhelming response to your institutions?**

We prepare not just excellent industry-ready professionals, but smart, confident and capable thinkers who have an incredible foresight and vision to come up with ingenious, out-of-the-box ideas to convert every challenge into an opportunity. We gear them up not just for academic exams but for the exam of life. The industry has now accepted it that Galgotia's stand for employability skills and quality education.
