

## WELCOME TO A 2 BILLION DOLLAR DREAM.

Imagine a lifestyle that is different from anything you have experienced. A lifestyle which springs from a grand vision, world-class talent and a deep understanding of customer needs in the form of integrated mixed-use townships built on a mega scale. Imagine an investment of US\$ 2 billion – the largest Foreign Direct Investment (FDI) in Indian real estate by a Private Equity Fund – and a whole new world begins to unfold before you.

Our ability to think of the smallest detail will make a big difference to the lives of those who rely on us. It enables us to build today so that when tomorrow comes, it is ready and waiting to welcome the next generation. A place where the experience of living and working will not just be redefined, but multiplied.
