India in NUMBERS

If statistics are any indicator of India's economic health, we are a country of stunning diversity

Only **5 in 30** states have an urban population of over **50 per cent**. These are Delhi, Puducherry, Goa, Mizoram and Tamil Nadu.

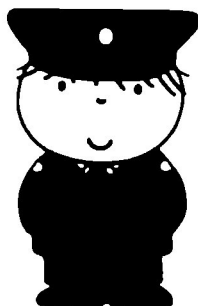

Among the big states, Punjab, with a yield of **4,017 kg** per hectare, is the top farmer of the country while Maharashtra, with a yield of just **940 kg** per hectare, is the worst.

THE OTHER TOP TWO STATES ARE...

3,405 kg/hectare

3,393 kg/hectare

Large troubled states have the worst police-men to population ratio. Bihar has **50 policemen** per 1 lakh people, the lowest in India.

OTHERS

West Bengal 59 Uttar Pradesh 64 Orissa 70
Andhra Pradesh 81 And the best... Mizoram 358
Jammu & Kashmir 351 Delhi 303 Sikkim 298 Tripura 283

Nearly all the homes in Delhi have power. In Bihar, only one in five homes can boast of that.
