

ABSOLUTE SENSATION REF PROGRAMMED

Presenting Stunner version 2.0 with the same look and technology as the iconic CBR1000RR. Plug in and you'll never stop playing.

9 enjoy
the quality

Self Diagnosis

The Malfunction Indicator Lamp (located in the meter console below the PGM-FI logo) indicates system problems. For a user-friendly riding experience.

Drivability

The fuel injection mechanism supports speeds up to 100km/hr. And this high speed drive is smooth as well.

Low Emissions

Save what's important. Advanced PGM-FI technology reduces emissions to as low as 1/10th* of BS-II norms.

Easy to Start

Crisp and instant engine startup at a single click. Enabled through Idle Air Controlled Valve.

Sense of Inclination

The bike comes loaded with a sensing device (Bank Angle Sensor) that cuts off ignition and fuel supply when the bike tips over a certain angle.

CBR1000RR Derived Design

Colors and stripes inspired by the Honda CBR1000RR Fireblade. A sporty Half Chain Case. Handle Bar. Weights for a smoother riding experience. A Premium 3D PGM-FI emblem. Gaming was never this much fun.
