"Baroda Next - State of the Art. Straight from the Heart" was introduced as a sub brand to indicate the technological progress while retaining the human touch. The march they commenced in February 2009 with the "Baroda Next" campaign has traversed its "next" logical course.

The "Baroda Next" communication has caught the imagination of customers and other stakeholders. It reiterates the positioning as a modern bank with an international perspective while retaining its business prudence that has helped it surmount the challenges of an ever changing business environment. They have also introduced some of the important product lines and facilitators like CBS banking, ATM, online banking, home loan, educational loan and SME support. They are logically taking the concept of "Baroda Next" to the level of actual deliverables. They are seamlessly shifting from branch banking to "Any branch banking, internet banking and phone banking - 24 X7 - fast, easy and convenient banking", with a special focus on the tech enabled services like funds transfer, rail ticket booking, online payment of bills and taxes. The full range of these products will continue to position brand "Baroda" as a modern bank and yet be driven by values.
