Say no to bling

Wear simple but classic jewellery to work.

HERE ARE
SOME HANDY TIPS
ON HOW TO DRESS
SHARP AND SMART
FOR THE OFFICE

RITU BERI, DESIGNER

Tick tock

Select a classy watch to go with your clothes. One with a neutral band in leather or metal will look good.

Freshen UP

NORMAL SKIN

Mix a tbsp of tomato juice, oatmeal and a drop of peppermint oil. Apply to damp skin. Wipe off after 10 mins.

Keep it simple

Keep makeup to a minimum. Too much of it can make you look caked.

Dewy fresh

Choose subtle colognes and perfumes. Avoid very strong smells.

Apply a paste of 1 egg white, 1 tbsp each of yoghurt and multani mitti on the face. Rinse with water once dry. This is good toner.

Happy feet

Avoid very high heels, and shoes that make noise. Comfort is the key for footwear at work.

Well groomed

Invest in regular manicures and pedicures. Go for hair trims and colouring if needed.

Spice it up

Add colour to a black trouser suit with a slim silver bangle and dainty silver earrings.

OILY SKIN

Mix multani mitti, gram flour and sandalwood powder in equal portions. Use a tsp of this scrub made into a paste with water. Exfoliate twice a week.

Seasonal fruits like papaya, cucumber and watermelon are good moisturisers. Squeeze the fruit in a blender and apply. Leave on for 15 mins and rinse off with cool water.
