

Due to the encouragement for the private and public sector investment and the simultaneous boost for vocational and technical education, the smaller towns and the lesser developed regions of the State are getting increased opportunities for attracting investment.

Chief Minister, Ashok Chavan

Tourism

The state of Maharashtra is blessed with a glorious history and geography that never fails to

attract tourists. There are abundant forts, temples, caves, heritage sites symbolizing the rich past. The very many pilgrimage centers, vibrant festivals, folklore, artisan and local specialties give Maharashtra a unique character. Cities such as Mumbai, Pune, Nashik represent modern and developing India. Maharashtra is thus a blend of modernity and traditionalism which is reflected in every point of contact.

The government launched its eco-tourism policy in February 2008. It has backed it up with a budget of Rs 167 crore in 2009-10 to give impetus to tourism.

Maharashtra is a haven for nature lovers. The Jewel in the crown is the Melghat Tiger Reserve located in the Satpura Hill Range. Today, it is a known destination for eco-tourism. The state is involving the tribals in protecting the flora and fauna in the area

Tigers & tribals live in harmony in Maharashtra

and teaching them to earn a livelihood in the process. In the process the state seeks to protect wildlife, create self-employment and protect the tribal culture.

The Tiger population is increasing. And the state government is providing residential facilities to tourists in the tribal areas, to enable tourists to enjoy a glimpse of tribal culture.

The world famous Ajanta Ellora Caves have got a new look with Rs. 360 crore loan

from Japan Bank Corporation Ltd. The Mahabraman programme, a joint initiative between MTDC and Private Tour Operators has been flagged off to introduce ethnic tourism and promote rich regional heritage and cultural diversity.

Since Maharashtra has a beautiful coastline it is ideal for water sports and adventure tourism. Hence, a Scuba diving centre is being currently set up at Tarkarli by MTDC.

MUMBAI METROPOLITAN REGION DEVELOPMENT AUTHORITY

MMRDA

TRANSFORMING MUMBAI INTO A WORLD CLASS CITY

MMRDA'S MEGA INFRASTRUCTURE PROJECTS AIMED TOWARDS BETTER QUALITY OF LIFE FOR ALL MUMBAIKARS

PROJECTS UNDERTAKEN BY MMRDA

MONORAIL PROJECT

- Initially, the project will be implemented in Mumbai
- The potential corridors identified for the Monorail are Jacob Circle to Wadala and Wadala to Chembur, Bandra-Kurla Complex to Bandra (East) Station, Oshiwara to Kanjurmarg via JVL R, and Thane-Bhivandi-Kalyan
- The project will complement the existing public transport system and ease traffic congestion on the roads for sure
- The first corridor from Jacob Circle to Wadala and Wadala to Chembur is 20 km long
- Rs. 2460 crore project has been awarded to Larsen & Toubro and Scooni Engineering Bhd., Malaysia
- In the next phase, the project will be augmented in 7 Municipal Corporations and 13 Municipal Councils as per demand

MUMBAI METRO RAIL PROJECT

- The Metro rail project is to provide East-West and North-West connectivity
- The 9-corridor Metro rail will cover length of 146.5 km in the city
- The three routes identified in the first phase are Versova-Andheri-Ghatkopar, Charkop-Bandra-Mankhurd and Colaba-Bandra
- Work on 11 km long Versova-Andheri-Ghatkopar (Rs. 2356 Crores) is already underway
- Reliance Infrastructure led consortium will begin construction of Charkop-Bandra-Mankhurd Metro Corridor (cost Rs. 8250 Crores) shortly

- Govt. of India will provide Viability Gap Funding of Rs. 1532 Crores for the project and the MMRDA will provide Rs. 766 Crores

- The 32 km long route will be fully elevated
- The air-conditioned Metro will run from 5.00 am till midnight

SKYWALK

- To provide pedestrian safety, especially while crossing major arterial roads, is the motto of this Rs. 1481 crore project
- The first skywalk from Bandra Railway Station (East) to Kalanagar was completed in less than the stipulated time
- In all 51 skywalks have been identified in Mumbai and its Metropolitan Region
- Work on 38 skywalks is in progress and will be completed by May 2010

THE MULTI-MODEL CORRIDOR FROM VIRAR TO ALIBAUG

- The 100 km long freeway will have eight lanes for the vehicles besides dedicated lanes for buses
- The road will also have a Metro Rail track right in the median of the corridor
- This corridor will begin from Virar on the National Highway 18 and will culminate at Alibaug on the National Highway 17 via Bhivandi, Kalyan, Dumbivalli and Panvel
- Out of the 100 km a stretch of 60 km will be constructed anew

THE ICONIC TOWER

- The 101-floor Tower would be constructed at Wadala on DBOOT basis
- Asia's biggest multi-modal hub will be connected by Eastern Free Way, Mumbai Trans-Harbour Link, Monorail and of course the Eastern Express Highway
- The top thirty floors will be earmarked for international corporate offices, entertainment zones and high-end hotels
- Eco-friendly systems including energy conservation, re-cycling of water and also re-cycling of heat generated by the air-conditioners and such other heat generating systems would highlight symbiotic genre of technology and ecology
- The Tower will be the pride of India's commercial capital

AFFORDABLE/ RENTAL HOUSING

- MMRDA will build five Lakhs houses, each admeasuring 160 sq.ft., within a period of five years
- Letter of Intent has already been issued to 11 different developers who will build 1.70 lacs houses
- The various townships will be equipped with all basic civic amenities such as water, electricity, roads, street lights etc.
- The monthly rental will be from Rs. 800/- to Rs. 1,500/- per month
- The cost of the project is Rs. 10,000 crore and will complement Slum Prevention Programme

RESETTLEMENT AND REHABILITATION PROJECT

- Implementation of MUDP, MUIP and Mithi River Development Project required resettlement and rehabilitation of 58,000 project affected households (PAHs)
- 18,000 PAHs have been resettled and rehabilitated under MUDP
- 14,000 PAHs have been resettled and rehabilitated under MUIP
- 3,000 PAHs have been resettled and rehabilitated under the Mithi River Development Project

NATIONAL RESEARCH AND TRAINING INSTITUTE

- MMRDA would be establishing NRTI on the lines of Federal Transit Administration (FTA), USA
- The role of FTA is critical for public transport in America
- FTA has agreed to share its expertise with MMRDA
- FTA's representative committee and MMRDA have arrived at areas of common interest
- A plot admeasuring 1,300 square meters is identified in BKC for the establishment of NRTI

WATER RESOURCES IN MMR

- MMRDA would invest about Rs. 4,700 crores in water resources to generate 3,100 extra MLD water
- Dams will be constructed at Shai, Poshir and Kalu at a total cost of 3,700 crores
- MMRDA will spend Rs. 1,000 crores for water distribution network of Surya Dam
- The Surya project has already generated 300 MLD of water for the region
- MMRDA will look after its water distribution and supply
- Dams at Shai, Poshir, Kalu and distribution of water to Western Region is MMRDA's goal

INNOVATION PARK

- MMRDA has approved an Innovation Park over 5,000 acres of land in Mumbai Metropolitan Region
- Innovation Park will be city of wisdom, knowledge and creativity where technology and ecology would become symbiotic
- The Park will host about 25,000 scientists from about 100 countries
- The Park will generate about one lakh jobs within the Park and about eight lakh jobs in the economy on the spill over effect
- Government of India has already signed MOU with more than 70 countries, based on which the State will be able to develop R & D Centers
- MMRDA has constituted a Vision Group to lead this concept alongwith Science and Technology Park, Pune
