FOR QUALITY EDUCATION

Few years ago, a student from Rajasthan wanting to pursue higher, technical or vocational education had to either travel to Metros or overseas. But in recent years things have started to change, as Rajasthan, famous tourist destination and the land of forts & palaces, is now fast emerging as an educational hub. Known for its peaceful environment and colorful culture, the state is today attracting students from different parts of country. It is nothing less than a paradigm shift where the trends have changed from students migrating from Rajasthan to students coming to Rajasthan. Rajasthan not only offers peaceful environment, it also now offers various innovative course in different fields. The education system is better here & moreover with number of institutes and universities, students have ample choices to choose from. Shedding image of its lagging behind in the field of education, Rajasthan has now a sound infrastructure of education. Many institutes and universities have already been set up in the state while others are on the verge of doing so. In a major fillip to higher education, numerous private universities in the state have become functional to offer not only good education but have also brought expertise and infrastructure that can make world class institutes to envy them for such a progress in short term. Presenting here, pursuit of a few of institutes of Rajasthan, committed to walk extra mile to deliver best both in terms of quality and social service to take **India for a Better Tomorrow**.
