

We are Punj Lloyd

Punj Lloyd | Sembawang | Simon Carve

We have done it all.

Designing and building the world's largest single stream LDPE plant. Completing our section of Baku-Tbilisi-Ceyhan Crude Oil pipeline eight months ahead of other contractors.

Constructing Marina Bay Sands™ integrated resort's casino, theatres and retail arcade.

These are just some achievements that have made us the foremost name in the oil & gas, infrastructure and petrochemical sectors.

The stage is global, the projects complex, the staff diverse. But in unity, we are one name.
