

The leader in education continues to produce leaders

**India's No. 1
private
engineering
institution
moves ahead with
innovations**

It's all in the atmosphere here. VIT, with an ambience and energy that breeds winners, continues to do what it excels in: create leaders for the future of our planet.

The magnetic draw of VIT brings to its campus a cosmopolitan group of motivated students from around the world—eager to take advantage of the institute's famed innovative programmes. And making it all happen is the highly qualified international faculty, who enhance the quality of education with their energising interactions and top notch facilities.

GLOBAL STANDARDS

In 2008, over 1,38,000 students applied for the VIT Engineering entrance exam—indicative of how coveted a seat here is for young ambitious and talented students. Today, there are 15 undergraduate programmes and 30 post graduate programmes, credited by national and international agencies
