

A new year's resolution that's not hard to keep.

Resolutions. They come with every new year, and quickly disappear a week after. But this year, make a resolution that's a whole lot of fun and much easier to keep: that of partying all year long! With Smirnoff and Smirnoff Flavors, you can bring all the fun to your parties by mixing awesome cocktails at home itself. And for once, making the cocktails will come just as naturally as clinking your glasses for a toast. That's because a Smirnoff is so pure, it mixes with anything. So even half-decent attempts and rank disasters end up becoming fresh discoveries. And as you go along, you'll discover how simple it really is. Try this, and you'll carry this skill well into the next year.
