The Audi R8.

Born of powerful ideas.

The Audi R8 possesses all the powerful ideas we have conceptualised and perfected over the years - quattro® permanent all-wheel drive, Audi Space Frame, FSI technology and more. Its mid-mounted engine takes it from 0 to 100 in less than 4.6 seconds at a top speed of 301 km/h, yet it's the slowest car we've ever built. For our engineers painstakingly fit 5000 of its parts entirely by hand. The result is a sports car which embodies automotive perfection.
