

stamp duty, repealing the Urban Land Ceiling Act, enactment of community participation and the Public Disclosure Act. Urban Governance is therefore posing as one of the foremost challenges of Development Administration in Maharashtra.

## Mumbai: World-Class City in the Making

The Mumbai Makeover is not just a dream; it is a reality that is happening here and now. This new reality is what Mumbaikars have been experiencing over the past four years, each time they zoom across the Jogeshwari-Vikhroli Link Road, see the Bandra-Worli Sea Link coming up or step into a new comfortable EMU rake while commuting to work.

Transforming Mumbai into a world class city and an international financial centre has been high priority on the Maharashtra Government's agenda for the last four years. Over the next 15 years, Mumbai is expected to grow into the world biggest megapolis and keeping the global trends in mind, the Government of Maharashtra has drawn up an ambitious action plan for makeover of Mumbai, aimed at transforming the Mumbai Metropolitan Region (MMR) into a global financial hub.

Some of the major decisions taken by the State Government for the Mumbai Makeover include the new Housing Policy, Metro Rails, Skywalks, Borivali-Nariman Point Waterway and Mumbai Urban Transport Project (MUTP) projects promising faster and better connectivity across the city.

Here's a list of all the things Mumbaikars can look forward in the next few years, things that will change the face of the city and the way its citizens live.

### Global Mumbai

- ❖ With consolidated efforts of all agencies Mumbai Makeover gains momentum.
- ❖ Work of 18 roads and 16 flyovers expedited to reduce traffic congestion.
- ❖ First Sky-walk of country in Mumbai. Total 50 Sky-walks to be constructed within next year.
- ❖ 156 new local trains for comfortable suburban railway travel.
- ❖ Mono-Rail to be introduced from Malabar Hill to Bandra-Kurla Complex and Thane to Bhiwandi.

### Mumbai Metro

- ❖ 146 km. long Metro Railway Project for connecting suburbs.
- ❖ The first corridor is the 11.5 km stretch from Versova to Ghatkopar.
- ❖ The other two corridors are: 38 km Colaba to Charkop and 13.4 km Bandra/Mahim to Kurla to Mankhud.

### Bandra-Worli Sea Link

- ❖ Construction of Bandra-Worli Sea Link nearing completion.
- ❖ Motorists will save around half-an-hour of commuting time each way as the link cuts down the distance between Bandra and Worli from the present 7.7 km to only 4.7 km.
- ❖ The bridge will make commuting, between the western suburbs and the island city, much faster and more comfortable.
