

to its IT Park in Pune, Satyam Computers, a major IT service provider is setting up an IT Park in Nagpur's proposed Special Economic Zone.

Vision Ahead...

- ❖ Develop Maharashtra as Asia's most competitive manufacturing and service hub.
- ❖ Achieve at least 10% and 12% growth in manufacturing and services sectors respectively.
- ❖ Retain Maharashtra's position as India's Best Investment Destination.

Peace To Progress

Policing will be of no avail unless citizens observe discipline voluntarily. This is the basic idea behind the concept of the "Mahatma Gandhi Dispute Free Village Campaign".

The State Government initiated this scheme on August 15, 2007. The idea was that if the common people dissolve their petty issues on their own and do not seek Police intervention, the overworked Police force will be able devote its services to solve bigger issues. The people of Maharashtra have responded with considerable enthusiasm to this idea.

This not only encouraged the people to resolve their disputes within the community or village level, but also evoked an air of freshness and confidence amongst the villagers across the State. This scheme has been declared a success with over 2000 villages across the State being declared "Dispute Free" villages under this campaign. It is expected that at least 5000 more villages will be soon added to this list. Maharashtra is the first State which implemented such an innovative scheme.

Maharashtra Villages: A Model of Cleanliness

The Nirmal Gram Puraskar Yojana initiated by the Central Government was adopted with full strength by various districts of Maharashtra and the State is today a leader in this regard. The criteria included 100 per cent sanitation coverage with individual or community latrines, 100 per cent school and anganwadi sanitation coverage, a living environment free from open defecation and clean environment maintenance.

Maharashtra is today the #1 State in rural sanitation and 2367 Gram Panchayats have won the "Nirmal Gram Award" in the last 3 years. The villages were assessed by an independent agency after which they were declared eligible for the awards. The award scheme not only inculcated a competitive spirit among the villagers but even helped many villages overcome internal differences and work in unison to achieve the goal.

MUMBAI METROPOLITAN REGION DEVELOPMENT AUTHORITY

TRANSFORMING MUMBAI INTO A WORLD CLASS CITY

MMRDA'S MEGA INFRASTRUCTURE PROJECTS AIMED TOWARDS A BETTER QUALITY OF LIFE FOR ALL MUMBAIKARS
