

Anniversary Special Issue

As *Design Today* completes seven years of design and architectural know-how, we bring you a special anniversary issue where we've asked India's top architects to showcase their 'dream homes'. From Alibag to Kodaikanal, from Bangalore to Kolhapur—each house is unique and will hopefully inspire you to build your own dream home. We also give you insights offered by creative minds in the fields of fashion, film-making, music, art and even politics on their vision of a dream home and what it means to them.
