Secure Future

The new pension scheme sounds attractive and within the reach of the commoners ("Saving Grace", May 18). Investing the funds in securities might be able to provide rich returns to the investors but the Government needs to clarify some of the clauses therein to instill confidence among members.

Chaotic Order

The plethora of laws inherited from the British coupled with innumerable native laws with an edge of freedom and democracy has hampered the delivery of quick justice ("Usher in a New Order", May 11). Further, the administration has failed to be result-oriented. These factors are a hindrance for fast development and upbringing of our country compared to the advanced countries in the world.

Security of a nation should be seen with regard to the entire gamut of spectrum of conflict i.e. nuclear, conventional and non-conventional, including terrorism; both external and internal, aided and sponsored ("Learning to be Tough", May 11). The policy makers should consider the threat and the cost-benefit ratio with regard to appropriate responses to counter these. Sustained involvement by successive

governments to build that capability is needed.

India Calling

In such a cimmerian hour for the world economy when people are being sent back to their countries, the Indian youth seeking a better life in the US are struggling to make both ends meet ("The American Nightmare", May 11). It might be well assumed that in coming years, the well-

Events that Changed India' (dated August 18, 2003), described Nathuram Godse as an RSS worker and argued that the idea that killed Gandhi is still alive. It has subsequently been brought to our attention by the RSS that Godse was not associated with it. The article did not in any way imply that RSS was even remotely responsible for the killing of Mahatma Gandhi. We are sorry if

Corrigendum

The article 'Gandhi's Assassination: Killing a Dream', published in INDIA TODAY Special issue on '56

the article hurt the feelings of RSS workers. It was not the intention of the magazine to question the philosophy of RSS which is regarded as a social organisation. We regret the misunderstanding and the wrong impression, if any, caused by the write-up whose focus was how the assassination of Gandhi changed India.

Come Full Circle

So it was the turn of progressive, Marxist-ruled Calcutta to help, inadvertently though, Sanjay Gandhi in his attempt to relaunch himself in politics. That too when the Special Courts Act is sending jitters down the embattled ranks of the Congress(I). Sanjay Gandhi's visit to Calcutta last month, master-minded by his friend Kamal Nath, will go down as a significant event. It proved how desperate the Gandhi family is to protect its members from the Special Courts, by acquiring the halo of a political leader. It also shows that despite the developments in Karnataka, the Congress(I) organisations in the states are basically to carry out orders from Mrs Gandhi's family. Sanjay's visit was ostensibly to protest against the state government's failure in solving the power crisis. But that was just an excuse; the worst days of power crisis are nearly over. But that is of little concern to the bald messiah of the Congress(I) who was more interested in finding a suitable peg to hang his political ambitions on.
