

A Benchmark for excellence

Gem Hospital - The Gastroenterology & Advanced Laparoscopic Surgery Centre

GEM Hospital, the first dedicated laparoscopic centre in Asia, ever since its inception, has been the pioneer in the field of gastrointestinal and advanced laparoscopic surgery. This 200 bedded super specialty centre has the state of art facilities in their six operation theatres and one therapeutic endoscopic suite with facilities of teleconferencing across the globe at any given time. It is equipped with unit 24 bedded ICU to tackle acute liver, pancreatic and gastrointestinal emergencies.

ADVANCED LAPAROSCOPIC SURGERIES

Minimally Invasive Laparoscopic Surgery (keyhole concept) has become the order of the day. This is the first hospital in India which initiated laparoscopic surgeries for peptic ulcer, hernia, heart burn, achalasia, prolapsed rectum etc. Laparoscopic surgeries for Choledochal cyst & hydaid cyst of liver got the SAGES Award (U.S.A) in 2002 & 2003. As a world first, diaphragmatic hernia repair through laparoscopy, was performed in 1996.

ADVANCED DIGESTIVE CANCER INSTITUTE.

Digestive cancers of esophagus, stomach, rectum, liver, & pancreas are highly prevalent in India. Apart from increasing incidence, these affect the present generation more than ever. Laparoscopic Cancer operation was performed for rectal cancer for the first time in India at this centre in 1993. Since then, almost all types of cancers are successfully treated by Minimally Invasive approach. Morbidity after treatment is low and the cure rate has vastly increased. Many Gem Hospital cancer operations have been considered world best and had won awards and appreciations. Thoracoscopic Esophagectomy, for cancer in the food pipe, got the European Society of Endoscopic Surgeons award in 2007. Laparoscopic Whipple operation for pancreatic cancer won the American College of Surgeons awards in the year 2000, Gastrectomy for stomach cancer in the year 2008.

HERNIA CENTRE

Laparoscopic repair of inguinal and abdominal hernia has resulted in almost no post operative pain and speedy recovery, enabling patient to resume routine work in a couple of days. The recurrence rate has dropped to almost zero. Gem hospital surgeon Dr. Parthasarathi got the 'Stoppa' award for the best incisional hernia surgery at the IIIRD International Hernia Congress at Singapore in 2007.

WEIGHT REDUCTION CENTRE BARIATRIC SURGERY

Obesity is a disease which carries with it debilitating and life threatening problems including diabetes, hypertension, high cholesterol and hyper lipidemia, sleep apnea cardiovascular diseases and osteoarthritis. Cancers of uterus, large intestinal and breast are increasing incidence in morbidity obese people, this can cause sudden mortality. Laparoscopic with gastric operations have been

found to reduce the weight significantly. Hypertension, diabetes and high lipid profile, including menstrual cycles are normalized after laparoscopic surgery.

Gem Hospital introduced Laparoscopic Bariatric Surgery in India by performing

the 1st Laparoscopic gastric bypass in 2001. Because of the importance of this problem a specialized department "The obesity and Metabolic Surgery Centre" was started in 2005. Since then, over 400 obese people have been successfully treated. A committed obesity team comprising of physician, lap surgeon, cardiologist pulmonologist, endocrinologist, psychiatrist, trained Nurse and Dietician at Gem Hospital takes care of obesity patients and infrastructure has been developed which includes a separate operation theater. This hospital offers educational and conducts awareness programs on obesity.

THERAPEUTIC ENDOSCOPIC CENTRE

High definition endoscopes for diagnostic and therapeutic procedures Stenting for advanced cancers, G.I. Bleed, Bile duct stone extraction are performed regularly. Natural Orifice Transluminal Endoscopic Surgery (NOTES) is becoming popular. Dr. P.S. Rajan of GEM Hospital, an expert demonstrated a live transvaginal appendicectomy to Korea in 2008 first teleconferencing in the world.

POST GRADUATE TRAINING CENTRE

GEM hospital is accredited by National Board of Examinations, Government of India, for Super specialty in surgical Gastroenterology training. Dr. P. Senthilnathan surgeon at Gem Hospital got the first rank at national level and received the Gold Medal in Superspecialty DNB Examination. GEM hospital, has another first to its credit, they offer PhD program Laparoscopic Surgery for training. Apart from these, a few short term courses are offered as upgradations.

VISITING PROFESSOR & PRIVILEGED SURGEON

Surgeons studied in their own country are allowed to perform operations in US, UK and most of the foreign countries. In contrast,
