

# Tamil Nadu **The Education Hub of India - III**

Tamil Nadu universities share a key strength: their high quality. The universities have a long record of providing an accessible university education to students from across the globe. Reflecting the rich history many cultures and traditions, these universities offer a mix of opportunities in a variety of educational settings. Tamil Nadu Universities form a full spectrum hub that provides undergraduate and graduate degree programs, ranging from large urban, multi-campus and research-intensive universities, offering a wide range of undergraduate, graduate and professional programs, to specialized colleges with a focus on technical education and professional programs in fields such as business, aviation, art or agriculture. A university education speaks of new skills, better job prospects and higher salaries that can be used for a lifetime.
