

with professors and know about their children's progress first-hand. The students themselves feel that they become better individuals, bubbling with confidence, and ready to take the challenges of the future. They have the freedom to choose from a wide variety of unique courses in energy, biology, and space science; in addition, new and exciting courses are introduced every year. Further, the students are given access to Internet facilities which enable them to expand their knowledge-base and keep themselves abreast with the latest developments in any field.

The present vice chancellor of the university, Sri.J. Lakshmi Narayanan, following the foot-steps of his illustrious father, and using his American education is introducing various schemes to raise this university to the international status. He has introduced the Edu-sat-lab, which has provided a world-class platform for undertaking extensive science, space, and infotech researches.

Mr. J. Lakshminarayanan
Pro-Chancellor, BE, MS (USA), (Ph.d)

The present administrative director, Smt. Swetha Lakshinarayanan, under her direct supervision, is organizing special fests to bring out the hidden talents of students in art, sports, and fine arts. She has taken

special care to give facilities on par with international standards to students of this university. A special mention is to be made about the special training given to B.Tech students to acquire the CCNA certificate, to increase their job opportunities in the networking field. Besides, special coaching is provided to students for scoring high marks in the GRE, TOEFL exams, so that they can confidently chase their "American" dreams! .
