

Flagship University For the Millennium

Kalasalingam University (Formerly Arulmigu Kalasalingam College of Engineering (AKCE)) was founded by "Kalvivalal" Thiru. T. Kalasalingam, a veteran freedom fighter who believed that education is the successful foundation of a free India. Thiru. T. Kalasalingam is the Chancellor of the Kalasalingam University, which is managed under the auspices of the Kalasalingam and Anandam Ammal Charities started in 1984. The founding philosophy of the Institute is to "Empower Youth" for development through technology. This flourishing university which boasts of a diverse student population is located at the foothills of the Western Ghats of the Virudhunagar District.

The main focus of KLU is on research in the 3 'O' technologies: Bio, Info and Nanotechnology. The academic courses in Kalasalingam University (KLU) are a four year degree course based on choice based credit system. This system is recognized in leading institutions like IITs in India, and institutions in abroad like MIT in US. There are 9 programs in B.Tech and 17 programs in M.Tech., besides M.B.A., M.C.A., M.Sc. and Ph.D. programs.

International Advisory Committee

Kalasalingam University has an International Advisory Committee with members from leading academic institutions around the world. This helps KLU to be globally competitive.

6 year Integrated B.Tech. Program for Hearing Impaired Students

Kalasalingam University represents the nation's first effort to make an inclusive study program for the Speech and Hearing Impaired students within an Engineering University-set up planned for mainstream students. The main objective of this program begins with a barrier-free environment at KLU gives hearing impaired students freedom to focus on the joy of learning, encouraging a high level of interaction with their classmates and professors. Facilitating this, Kalasalingam University offers a six year B.Tech. Program in Civil Engineering, Computer Science, Engineering, Information Technology and Mechanical Engineering.

TIFAC – CORE in Network Engineering

TIFAC – CORE in Network Engineering (TCNE) at Kalasalingam University was established under the Mission REACH Program of the Department of Science and Technology, Government of India in 2002. This centre is aimed at developing human resources on par with international standards in the field of Network engineering and its applications. Sun Micro Systems, Cisco Systems, Nortel Networks, Tyco Electronics, Intel and Fluke Networks participate in these programs.

National Centre for Advanced Research in Discrete Mathematics (n-CARDMATH)

Kalasalingam University is the first institution in India to get n-CARDMATH. With a view to promoting research, development and advanced training in Discrete Mathematics,
