

Taking this forward, Hindustan college of Engineering, situated off the OMR, in a campus spanning 150 acres, was established in 1985. This Institution has trained engineers and technicians in many disciplines of Engineering. It is well equipped with workshops and laboratories. It has now been conferred the university status by the UGC, Govt. of India, with the name Hindustan Institute of Technology and Science.

Dr. Elizabeth Verghese presently heads the group as the Chancellor and Chairperson.

Hindustan University is widely recognized in the Asian and African continents as a premier educational institution. Various Governments including the Government of Kenya, Tanzania, Zimbabwe and the Commonwealth Secretariat and several aviation organizations have sponsored students to undergo courses at Hindustan University.

What are the facilities offered by the Hindustan University?

We are proud about that our institution offers its students excellent infrastructure, an enviable faculty and the most up to date technical facilities including research labs, product development labs and computer labs. Separate facilities, provided with the latest equipments are available for the different departments. Government sponsored research initiatives worth more than 20 crores have also been undertaken.

The fully air conditioned library, houses a large collection of relevant technical books and journals both from India and abroad.

Hindustan Group of Institutions caters over 7,000 students. It has staff strength of 1,000 and has an illustrious alumnus of 50,000. These are the testimonies of the founder's deep-rooted desire to fulfill his vision.

In your opinion, what has been the response by knowledge seekers to the Hindustan University?

Hindustan University is one of the highly sought after institutions for its faculty, academic results, infrastructure and excellence in all round development. We have had more than 300 university rank holders, extensive research initiatives, linkages with leading industries and collaboration with

reputed universities abroad. There are scholarships at every level of academics.

Hindustan University has won many awards. In 2008, we were awarded the G-Cube award for Green Governance, and the Gurukul Jyothi Award for being one of the best engineering institutions in India. We were also awarded the MMA award for Managerial Excellence in Education.

Sir, we would like you to sum up to the current trend of education

My message to the student community is that "the coming together of minds leads to knowledge expansion, there are many colleges and each one can make a difference by motivating and contributing to the knowledge bank".

Mr. Anand Jacob Verghese has expanded the prospects for the learning process at the Hindustan University and has shown students to fly with the wind beneath their wings, by providing top of the line facilities and faculty.

In his office at Hindustan University, one can see how simple and focused Mr. Anand Jacob Verghese is, and this reiterates his belief in the words of the famous American President John F Kennedy as to ask not what your country can do for you, but ask what you can do for your country. These values have led to the sustained success of this world famous University.
