Soaring to new heights

Year of Good Governance and Achievements

The Government headed by Hon'ble Sri B.S. Yeddyurappa took the reins of the state's administration exactly a year ago with a cherished desire of Development and a Model State.

The immediate task for the new Government was to redress the woes of farming brethren. It took initiative to provide adequate fertilizer and seeds to them as it was sowing season.

The Government had a definite agenda and right priorities to achieve its goals. The blue print that had been formulated began to roll down. As a result, the farming community has been relieved of most of the problems and now they are totally in egalitarian mood.

The Government has provided a record amount of soft loan of Rs.3600 crore to farmers, weavers and fishermen numbering to 13.58 lakhs at a lowest interest rate of 3% p.a.

Many of such innovative measures not only benefitted the targeted people enormously, but also have drawn a niche for themselves at the national scenario.

Bangalore the silicon city of India has gained a big boost in its infrastructure facilities. The city is beaming with widened straight roads, good flyovers and underpasses. The work on Namma Metro is in full swing in the city.

As the Government enters the second year in office, it reiterates its total commitment to bring about a tremendous change in the development of the state. Needless to say, the introduction of many schemes speak volumes for itself.
