TO STAY PROTECTED FROM ULTRAVIOLET RAYS, SIMPLY BUTTON-UP THIS SHIRT.

The Park Avenue Anti-UV shirts keep you geared for any high-pressure day in the limelight.

Treated with Liquid Ammonia, its coating of special powder filaments scatters the baneful UV rays. Not allowing them to reach even the outer epidermal layer of your skin. Now, whatever the stage, you will stand out with

an unparalleled shine, lustre and whiteness offered by these exquisite shirts. With Park Avenue Anti-UV

shirts, long hours in the focus will all feel like a breeze. This is just one of the meaningful changes that have evolved Park Avenue into an 'innovation brand' offering leading new styles to the corporate world.
