

JAGMAG 
desh mera

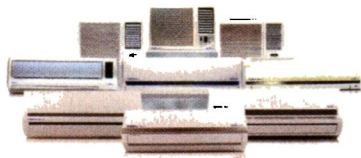

YOU MIGHT LIGHT UP ONE HOME, BUT YOU'LL IGNITE A MILLION SMILES.

Voltas's Star-Rated ACs come certified by the Bureau of Energy Efficiency (BEE), Government of India. They guarantee exceptional power saving and a generous reduction in your electricity bill by up to Rs 8250* annually.

Along with the cool, pollution-free comfort that a Voltas AC provides, you will also find comfort in the fact that we have tied up with The Energy and Resources Institute (TERI) 'Lighting A Billion Lives' campaign to light up needy villages across the length and breadth of India.

Should you so desire, you too can make a contribution to help us light up many homes from the savings on your power bills to TERI's 'Lighting A Billion Lives' campaign. To know how you can help, log on to www.jagmagdeshmera.com. Soon, a million other families will join yours in happiness.

India ka dil. India ka AC.

* Indicative saving under conditions mentioned below. 1 KW power consumption = 1 unit with 8 hr/day AC runtime & 70% compressor on. 1 unit cost = Rs. 5/-, ACs being used for 12 months
