

Mr. P. D. Lakhani

CMD, Lakhani Vardaan Group

Today, Faridabad is once more home to many leading companies and organizations, of which Lakhani Vardaan Group is proud to be one of the oldest.

The Lakhani Vardaan Group was founded by Mr. P. D. Lakhani inspired by his innate entrepreneurial spirit. It is a testimony to his business acumen and Midas touch that since 1966 when the Lakhani story began, starting from a business of auto components, Lakhani India Limited, the flagship company of the group has today built strong equity and

trust in the market for its quality and commitment, creating a core business of footwear and spreading its wings in diversified fields namely apparel, detergents, disposable medical devices and education.

Its mission is simple and reminiscent of values that spring from the pragmatic soil of Faridabad. The group's marketing and distribution network extends across the country and is supported by various hi-tech manufacturing facilities spread over nearly 2 million sq feet and a Research and Development Centre with a state-of-the-art, 50,000 sq feet laboratory, run by dedicated professionals whose target is to keep the Group's offerings in conformance with the international standards of quality. New products and designs are continuously being developed in accordance with changing consumer needs to keep pace with an evolving market.

Our vision is to serve India by building brands respected not only in India but also globally. Our diversified business will draw on our core values to continue delivering customer satisfaction.

by Mr. P. D. Lakhani

Such clear focus has helped the group to become a house hold name across the country with its footwear brands such as Lakhani Hawaii, Pace and LVG Lite being worn by a wide cross section of Indians from the poor to the middle-class to the well-heeled. Popular Brands such as Levis & Disney trust only the P. D. Lakhani Group to deliver footwear that meet their stringent quality requirements. And across the board in its chosen areas the group is beginning to make its presence felt. Ambitious expansion plans are being rolled out that will keep the Lakhani Vardaan Group in the forefront of Indian business today and in the years to come.

"I am a son of the soil, born and brought up right here, a complete Faridabadi!" declares Mr. Lakhani with a smile.

Mr. Shyam Khemka

Chairman KCL LTD.

Another major industrial house KCL LTD, formerly known as Khemka Containers Ltd is one of the largest paper packaging companies in India, which has also established its plant in Faridabad, in addition to Greater Noida, Nalagarh and Paonta Sahib.

KCL has set up Country's First "successful" high speed Automatic Corrugated Box Line. KCL, after studying the International market for five years, zeroed on the best suited technology for the Indian market which can give good quality at affordable prices, as Indian market is very cost sensitive.

KCL's list of clients include the who's who of Indian Corporate world- Nestle, Heinz, Perfetti, Cadbury's, GSK, Colgate Palmolive, Samsung, Sony, LG, Godrej and many other world renowned companies.

KCL Ltd. have been thinking of entering the food business with our brand for a very long time. They saw breakfast cereal is one category that is growing and there is only one major player and convinced about taking the second place in this category in two years time and give value to the consumer.

FHS division of KCL manufactures Complian, Glucon-D and Glucon-C for Heinz. Under Murginns Brand KCL is marketing Corn flakes, Bran Flakes, Instant Wheat porridge, Choko Poko, Honey Pops, Honey Rings, Muesli, Ctixs, Honey Coated Corn Flakes. The above products are available at almost all the modern trade and selective traditional trade.

As a food manufacturer, they are committed to providing food products of an exceptionally high standard which are maintained by excellent quality management. R&D is the driving force behind our company. Here breakthrough innovations are made which pave the way for our success. In developing new products they adhere to the daily challenge of recognising changing market trends and responding to them quickly. Company have a modern R&D cum manufacturing facility which can dish out innovative products for Indian palate. The food business will be a high growth area in India in the coming years and they will offer better products at an affordable price point.

The competition in the Indian breakfast cereal market didn't notice that unlike most western consumers, about 61% of Indians preferred to eat breakfast cereal with warm milk. Murginns range of breakfast cereals are crisp even in hot milk.

KCL has launched Ctixs -Wafer roll filled with Cocoa cream and strawberry cream, the USP of the product is that the product is Trans fat free and its for the first time this kind of product has been manufactured in India.

KCL will be a Complete food company, giving value and innovative food products. Today Murginns range of Breakfast cereals are present Pan India. They have a number of products in the pipeline which they plan to market internationally in European and Southeast Asian Markets, they plan to enter other lines of operation in the food sector to increase our basket of offering to the consumer.

The current economic meltdown has almost no effect on the company future plans, as they believe strongly that India is where future growth of the world is. Mr. Shyam Khemka is the Chairman of the Group and is supported by his three sons Rajeev, Sanjeev and Ashish Khemka.
